

CLEAN & GREEN

Increase customer and employee satisfaction while protecting the environment – with a point-of-use water dispenser.

OUR ENVIRONMENT

BRITA's mains-fed dispensers eliminate the waste and CO₂ emissions associated with buying, transporting, and storing bottled water. Moreover, they reduce the number of plastic containers that have to be manufactured, conserving precious natural resources – and shrinking your ecological footprint even further.

GO GREEN!

A SEA CHANGE – IN SUSTAINABLE DRINKING WATER

Mains water must meet exceptionally stringent health and safety standards. And this level of vigilance translates into an excellent end-product. Official reports confirm that, for example, drinking water quality in the EU as a whole was found to be very good.*

Furthermore, drinking mains water does not mean compromising on taste. Any unwanted elements that could detract from its flavour – for instance, residual chlorine or organic materials – can be removed using BRITA filtration technology.

In addition, deploying BRITA water dispensers means shrinking your carbon footprint in comparison to bottled water.**

Dispensers
– better for
THE ENVIRONMENT.

“ Compared to scenarios where glass bottles are transported over 300 km, mains-fed water dispensers have a significantly smaller environmental impact – by up to 30 per cent. ”

* Synthesis Report on the Quality of Drinking Water in the EU, European Union, 2014

** Guide to Avoiding Waste, Bavarian State Ministry, 2016 (in German only)

**A complete, environmentally responsible solution:
Dispensers in combination with attractive, personalisable bottles.**

We offer a broad range of mains-fed water dispensers – combining outstanding design with outstanding technology. So you will find exactly what you need, with the right capacity, for your organisation. Moreover, you can combine the dispenser with an attractive bottle, featuring your logo, to create a complete and customised solution. The result is your very own source of water, with an attractive look and feel – a visible symbol of your high standards.
